

WHITE STAR QUARRY 2025 INSTRUCTOR PROGRAM

2025 Program: For many years, professional diving instructors who bring their students to White Star Quarry have been able to dive with their students for free. We are thrilled to announce that we now have flush toilets, changing rooms at the quarry, and showers at the campgrounds for 2025. Also continuing for 2025 is the ability to obtain a permit to solo dive for divers who have a recognized certification. **Please Note:** “Instructor” is NOT a recognized solo certification.

Divers Incorporated - White Star is also happy to announce that the instructor program will continue for 2025. Instructors will benefit from discounted air fill prices and a special Nitrox fill price with a properly labeled tank and a copy of their White Star Quarry 2025 Instructor Pass.

PLEASE NOTE: Your privilege to dive for free is valid only while you are supervising other divers. This program was never intended to allow instructors to dive for free without actively supervising others. We encourage you to bring people diving with you.

To qualify for this pass, you must:

1. Hold an active and verifiable instructor-level scuba diving certification from a recognized scuba agency. (Unfortunately, assistant instructors, dive cons, and dive masters do not qualify for this pass. We have [season passes](#) available for purchase for these dive professionals.)
2. Maintain current instructor liability insurance. **We must see your name listed as an instructor, effective dates of the policy, and we must see the three entities below listed:**
 - **Sandusky County Park District** (NOTE: NEW ADDRESS)
1329 Tiffin Street, Fremont, OH 43420
 - **Divers Incorporated - White Star Quarry**
901 South Main Street, Gibsonburg, OH 43431
 - **Divers Incorporated**
3380 Washtenaw Avenue, Ann Arbor, MI 48104
3. Follow the rules and guidelines that will be sent with your instructor pass and ensure the diving fee envelopes are filled out properly and deposited into the white tube.
4. Bring your students and customers to White Star Quarry, ensuring they follow the quarry's rules and regulations. You must verify that your students complete their forms properly, including filling out the envelopes front and back, signing them, and turning them in before entering the water. **Failure to ensure your students complete these steps is your responsibility.**

To apply for your 2025 White Star Quarry Instructor Pass, click the link below and follow the instructions. You will be asked to upload copies of your insurance papers, including the main page, pages showing the expiration dates, and the additional insured page. Please ensure these forms are available to you digitally before clicking the link or cutting and pasting it into your web browser.
